INTER-OFFICE CORRESPONDENCE

REILLY TAR & CHEMICAL CORPORATION

TO: MR. T. E. REILLY - INDIANAPOLIS OFFICE: St. Louis Park
FROM: E. L. Finch DATE: October 20, 1964
SUBJECT: WORK ORDER REQUEST - REMOVAL OF BY-PRODUCTS BUILDING

241A

AIR MAIL

In accordance with our previous discussions and correspondence on the above subject, we would appreciate your formal authorization for the removal of the By-Products building (Building No. 13). The removal of this building is necessary because it is in hazardous condition and beyond the state of economical repair.

The brick will be used to assist in stabilizing the expansion of our untreated tie yard facilities north of narrow gauge No. 6. This will be the initial stage of this stabilization program which we hope to ask for authorization to complete during 1965. In addition, some of the bricks will be used in the south portion of our south yard in connection with lumber operations.

Enclosed please find three bids for the wrecking of the By-Products building and the removal of the brick and debris, in accordance with our request. We have accepted the bid from Carl Rolander & Sons Company at the price of \$1,250.00. This bid was accepted even though it is \$150.00 above the low bid because of this firm's known reliability per past work performance for us and for reciprocity of business.

Yours very truly,

E. L. Finch
